## THE PERFORMANCE

This specifically designed high school Rock show is high energy, fun, informative and crammed with full-on Rock music. Kicking off with a high energy, well known Rock'n'Roll song, it then takes a leap back to the musical influences which formed Rock'n'Roll such as Blues, Country & Western and Gospel.

Terry & Gillie explore how the music evolved to give Rock its unmistakable edge through the introduction of the solid body guitar by Leo Fender in the 50's and then the invention of pedals and sound effects. They also cover the influence of the major bands such as The Beatles, Cream, Pink Floyd and The Rolling Stones & female rock legends such as Janis Joplin, Tina Turner and Dusty Springfield. Students will recognize many of the songs that have survived the test of time and those that have become recent hits again. They will also get a chance to get up for a dance during 'Nutbush City Limits' if teachers and space permit.

# Sounds Like...it's Really Good!

**Terry Murray has been presenting at Good Samaritan for approximately 13 years. We call him back every year as we love love love his dry sense of humour and bad dad jokes (which we never get sick of) as well as his incredible musicianship. Sounds like Rock was once again an educational and entertaining delivery of the history of rock n roll. Not only did the kids love and learn new things today, but so did the staff. See you guys next year!!**
