

ROSANNA ANGELICO PRESENTS:

ROSANNA & HER MAGICAL TREE

This delightful magical, musical show, will keep children completely mesmerized and thoroughly entertained. Rosanna's wonderful magic tricks, and sing-along music on her ukulele, will have them singing all the way home.

From beginning to end, the children are engaged in storytelling about a magical tree. This tree produces the most curious of fruits. It even makes appear a pair of magical boots. Inside they'll see a delightful talking bee, which teaches children much about the lovely tree.

The children will also see a table floating in front of their very eyes and a child's secret drawing, only seen by the audience, will disappear and magically reappearing inside the middle of an orange... and there's much, much more.

The performance is highly interactive as the story unfolds and wondrous objects are produced from this enchanting tree. She also teaches children about tree conservation. The magic is truly delightful and visual, with lots of funny, memorable moments, they'll treasure long after.

Rosanna delivers 45 minutes of fun, funny and mesmerizing magic. She never fails to stir the imagination of wonder and excitement in each child, no matter their age.
