

Artist In Residencies

with Parvyn and
Josh Bennett

Bollywood Bonanza! A.I.R.

THE CONCERT

A stage show extravaganza with all the colour, vibrancy, and excitement of the Bollywood film industry.

Experience and develop skills of acting, public speaking, dance, rhythm, music, theatre, and teamwork, alongside some cultural education and lots of fun!

Every child will have the opportunity to participate and perform on stage, learning simple yet impressive dance routines to songs from popular Bollywood movies or creating their own music and choreographing their own routines based around Indian movement and rhythms.

The show follows a story around the seasons of a year in India from Divali, the Indian new year and festival of lights, to the wedding season, monsoon, rainy season, drought, spring and harvest season where people rejoice and celebrate the cycle of new life. Each class will be allocated a dance or musical item that will be taught to them through storytelling during the residency.

PARVYN SINGH & JOSH BENNETT

Parvyn and Josh, themselves seasoned performers, are an inspiring and enthusiastic pair passionate about bringing the best out of every child. They are experts at getting everyone involved no matter how young or old, shy or outgoing. There will even be a section in the show where parents and friends are encouraged to get up and participate, learning some simple steps taught to them by the children.

Bollywood is marked by its brightness and colour so students are encouraged to be creative with their costumes, recycling items already in their wardrobes, or having an opportunity to wear ethnic outfits they might already have.

During Parvyn and Josh's stay (3, 4 or 5 days depending on the school size) the kids will also learn about Indian art, instruments and culture and find out more about life in another country, with plenty of chances to ask their own questions. With the growing multicultural society in Australia it is an excellent opportunity to experience and embrace another culture in a fun and inclusive way.
