## Naturalist Philip Green

Combining the knowledge of naturalist **David Attenborough**, the humour of **Robin Williams** and the daring of **Indiana Jones**, Phillip's visit will inspire the students and fire their imaginations!

Philip has visited or lived with indigenous communities in North and Central America, New Zealand and Australia.

In his eco-safaris across Australia, Philip has visited with local Aborigines living in Kakadu wetlands, outback deserts, inland river systems and mountain forests. He has collected artefacts and inspected Aboriginal sites in every Australian state. These experiences have inspired him to produce a cultural show that gives students the opportunity to connect hands-on with the survival technologies of Australia's First People.

Philip has visited over 1200 schools across Australia presenting his range highly-acclaimed of eco-science shows.

**"Students have responded with such enthusiasm and amazement at how much there was to see and find on their walks. Philip's infectious enthusiasm motivates and inspires students, firing their imagination to take an interest in the natural world around them and to consider their responsibilities in ensuring we are all working to create a sustainable environment for the future."** Riana PS

**"The whole school was carried into the wonders of the natural world – they were spellbound."** Erasmus School, VIC
