# COSENTINO SCHOOL OF MAGIC ONLINE LEARNING PROGRAM PRE-RECORDED

**Are you looking for something different to inspire curious minds?**

Does your remote home learning program engage students to find their passion?

Have you ever asked if your students want to learn magic to entertain, impress and amaze?

Now you can!

In this 40min online learning program designed for all ages and skill levels, Cosentino will share 20 years of professional performance experience teaching students fun, educational and amazing magic tricks using everyday household items.

Every program is bespoke with customized introduction and conclusion suited to each school's specific needs and wants.

The pre-recorded program will be hosted securely online for a 2 week period so teachers and students can access it at any time and learn at their own pace.

**The program will work in the following manner:**

Cosentino will first perform and present each magic illusion as it would appear live on stage or within one of his television shows. He will then take students step by step through the secret, technique and method to the effect. With the use of procedural texts, students receive hands on activities that stimulate metacognition, learn sleight of hand techniques that enhance their dexterity and fine motor skills as well as presentation, showmanship and confidence skills.

Students will use thinking dispositions such as:

♠ *Gathering data through all senses*

♦ *Thinking and communicating with clarity and precision*

♣ *Creating, imagining and innovating*

♥ *Thinking flexibly and responding with wonderment and awe*

**So what are you waiting for... Let the magic begin.**

**PRE-RECORDED PROGRAM LENGTH** 40 Minutes
